# Blunt Truth about Marijuana

Join us for an evening of learning and sharing what the social norming of Marijuana will do to our community on a short term basis and as a long term social, economic and family unit change agent. How does the use of marijuana by youth influence a change of the family dynamics?

Carol Falkowski, a respected researcher for the Alcohol and Drug Abuse Division at the Minnesota Department of Human Services will present facts and evidence on how youth – your son or daughter – is impacted by marijuana experimentation, use and abuse.

The Porter County Substance Abuse Council has assembled a panel of local experts to address your concerns and talk candidly on how your life will be affected either directly or indirectly as a result of marijuana in your home.
